

MACKAY COURSE | 4WD SKILLS

4WD day teaches specialised skills

Four-wheel drive enthusiasts get close to nature.

Add to your driving experience by taking part in a Nissan 4WD Skills Day.

THE North Jacklin Group are putting on a 4WD Skills Day on July 11.

This is a fun, family day out where drivers learn and practise 4WD techniques in their own vehicle.

North Jacklin flies in certified instructors to teach drivers techniques that they can take off road with them.

Attendees will learn techniques such as stall recoveries in forward and reverse, how to safely tackle ascents and descents, recovery and manoeuvring – all under the guidance of professional instructors who teach these skills for a living. To be able to practise these techniques in your own 4WD, with the family safely buckled in beside you, is a rare treat as this kind of course is not offered anywhere else in Mackay.

To top it all off, North Jacklin provides morning tea, lunch and afternoon tea to your whole family and subsidises the cost of the instructors.

Usually, this type of course would

Col Morris tackles a wombat hole in his 4WD.

set you back hundreds of dollars, but with North Jacklin's subsidy, the cost to you is \$99 a vehicle.

The course is open to anyone who has purchased a vehicle from the North Jacklin group – whether that be this year or three years ago, new

or used. The purpose of this event is to offer customers something a bit extra after the sale.

■ To book your place, contact North Jacklin on 4963 2200 or book online at www.northjacklin.com.au.
